Alpha

The Orbit kiosk is ideal for use in hotel check-in or employee check-in applications, but can also be adapted for: car rental applications, countertop photo kiosk, retail situations, order entry or POS, queuing, and locker solutions. It can be mounted to a pedestal if required.

As with all our kiosks, this unit is provided with powder coat finishes for quality looks and maximum durability. The Comet is designed for a 19" LCD touch screen, boasts a compact desktop kiosk design, can be configured as a pedestal mount kiosk, customizable side trim, lock and key front entry and a highly versatile Industrial PC that can include a Celeron i3 or i7 processor.
